

# Basic Hydraulic course CETOP level 1

RKK Basic hydraulics course provides an explanation of hydraulic components and symbols, and use practical examples to build and demonstrate a range of hydraulics circuits.

Our courses build on the best practise from international and Norwegian expertise in the various areas of hydraulics skills and are fully compliant with the CETOP standards.

Flexible - net supported - workshop - classrom

Product fact sheet #A2 -T1-L1-C1 for the industry market

The RKK Hydraulic courses consist of three levels, where each level builds on the previous level:  
Level 1: A2-T1-L1-C1 Basic hydraulic CETOP level 1 course  
Level 2: A2-T1-L2-C1 Advanced hydraulic CETOP level 2 course  
Level 3: A2-T1-L3-C1 Expert hydraulic CETOP level 3 course

### Objectives

On completion of the course, participants will be able to:

- describe the principle of operation and application of range of hydraulic valves and equipment in common use
- recognise and interpret CETOP symbols and circuit diagrams
- understand the basic principle of hydraulic flow and pressure
- diagnose and faults in hydraulic systems

### Prerequisites

None

### Duration

5 days

### Price

Please contact the RKK office in our region for a tender.
